PATENTS.

AMERICAN AND FOREIGN OFFICE.
AGENCY FOR BUSINESS
WITH THE U.S. PATENT OFFICE
WASHINGTON,

10. 76 STATE, OPPOSITE KILEY ST., AOSTON.
IMPOUTANT INFORM! THON TO INA VENTORS. The Subscriber (take Agent of
the U.S. Patent Office, under the Act of 5827)
determined to present advantages, in applying
for patents, superior to those official inventors
by others, hose made arrangements whereby on
applications oregard and conducted by him.
THIRTY HOLLARS (instead of heavily, as
paid back by others,) will be remined by time in
case of failure to obtain a patent, and the withdrawal through him within thirty days after the
rejection. Caveaus Specifications, Josephinents,
and all measury papers and drawings, for procuring patents in this and furriga countries prepared, and advice conducted on legal and scientificuativer exspecting inventions, and infringements of patents.
Inventors can not only hereobtain their specifications on the most reasonable terms, (generally
about 59 per cent, less than these of others in
the profession) but await themselves of the experience of 20 years practice, an extensive library of and mechanical works, underrect cotries; besides being saved a journey to Washington, the usual great delawthere, as well as all
personal trouble on obtaining their patents.
Copies of claims of any patent furnished by remitting one dollar. Assignments recorded at
Washington.

R. H. EDDY,
Solicitor of Patents
Durate the situations of any patent of the offer of the

mitting one dollar. Assignments recorded at Washington.

R. H. EDDY,

Nolicitar of Patents

During the time I occasied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston did businessait the Patent Office, as Solicitor of Patents. There were few, it may, persons auting in that capacity, who had so much business before the Patent Office; and there were more who conducted it with more skill, fidelity and/boscuss. I regard Mr. Eddy as one of the best informed and most skillful Patent. Solicitors in the United Status, and have no besitation in assuring inventors that they cannot employ a person more competent and treatworthy, and more capable of patents, that applications in a form to secure the them an early and favorable consideration at the Patent Office. EDMUND RURKE,

**Avoist* 17th, 1855.—The first them I have he'd the office of Comm' sincer of Patents. The Avoist* 17th, 1855.—The first them I have he'd the office of Comm' sincer of Patents, with the office, as a linity. He is thoroughly requarated with the kew, and the rates of practice of the Office, I regard him as one of the most capable and carcers full practitizeness with whom larves had officed intercourse. CHAS, MASON, Sept 12 1855.—Commissioners of Patents, distances full practitizeness with whom larves had officed intercourse. CHAS, MASON, Sept 12 1855.—Commissioners of Patents.

As charge made in Palicy or Survey, at PHILIP RIPER, Agest

BY CRANSTON & NORMAN

144 THAMES STREET.

THURSDAY MORNING, OCT. 23, 1835

It appears that the first act of the Japa nese government savoring of a violation of the recent trenty was exhibited lowards Commodors Rodgers, Commander of the United States surv ying squadron in the North Pacific, at Onsimo, one of the Loo Choo group of islands, where he was refused wood, water, provisions, and the services of a pilot. Commodore Rodgers in mediately sought out the King, and com. menced negotiations in the most effectual wity, attended by two hundred sailors marines and officers, with some field pieces small arms, and ammunition. The Japaneses officers got marined, and endeavored to stop the Commodore on his way by an invitation to a grand banquet; but our communder was not to be turned from the path of duty, by the allutement or even " worths in every style," and on he went to the chief, who, after some talk, furnished all that was required. The Americans at Simoda were most grateful to the Commodore for his firmness on the occasion-Commodore Rodgers afterwards partork of a banquet with Isava, " Prince of Idzec." The Russians and Americans at Simoda had a grand hanquet in the temple of Yokun, but they took the precaution to turn all the gods with their faces towards the wall, less they shou o shocked by looking on the profanity of a dance or gallopnde. In defence of the treaty affair, it is said that the American ship West Cheer, on a voyage from China to the Sandwich Islands with coolies, had entered the port of Loo Chos and contracted a debt of eighty dollars, which she refused to pay, and sailed away. Commodore Rodgers has discharged the bill. It is also alleged that the same ship settled an account for provisions at the Bonin Islands with a feir wind and flowing sheet

Washington Items.—The health of Mr. Mason, our Minister to France, is soid to be very feeble; he is so weak as to require propping up when sitting at the toble.

It is understood that the government has disapproved of the conduct of Dr. Worrel in striking his flag and coming hame. His successor will be shortly appointed.

Mrs. Bodisco, widow of the late Russian Alinister, has, with her brother, untered a bond in the Orphans Court, of one hundred thousand dollars, as administratrix of the witten no. Dodlaco, so for as relates to his pursonal usuate. The judge has decided and not having been witnessed according to the statute, was not sufficient to pass the real estate, which, however, goes by deacent to his widow and children. All his property in this country is supposed to .000,0088 pl. jagona

It is supposed that a strong military force will be stationed at Utah, but nothing will probably be done with matters until the meeting of Congress.

DEDICATION .- The new Catholic church at Bristof was dedicated on Sunday by approprinte religious services. Rt. Rev. B. O'Reilly, Bishop of Hartford, and a number of the clergymen of the diocese, were present and took part in the ceremonies. A large audience was in attendance, the church being crowded throughout the ser-

OFFICIAL CORRUPTION.-The following is reported as a portion of the presenti ment by the Grand Jury which the Recorder of New York refused to recu ve :-

Mr. Ebling, the Street Commissioner, icharged with having entered into a corrupt arrangement with Messrs. Smith & Seckle owners of the street sweeping machine, by which he was to give them the contract for sweeping the streets, they allowing him all they get over \$140,000. Ebling, it is said, expected to pocket \$35,000 by the operaation.

Another charge is, that cortain ex-membors of the Common Council had divided \$13,000 between them, and another, that a contractor had made arrangements with a head of one of the departments to divide the goods with him in consideration of hav ing his contract put through

EASILY SWINDLED .- An Englishman representing himself to be Sir Walter Per cy Beaumont, and claiming connection with many of the nebitivy of England, has been honoring Chambersburg with his noble presince for the last, three or lour manifes He succeeded in swindling persons, and induced a merchant to accompany him to New York, where he was to receive £100 000 from Lady Percy. It is needless to as that when he arrived there he slipped off and has not since been heard of.

Emza Logan -Strange incidents som times occur in the lift of an act ress. One evening lately while Miss Logan was performing in the Houchback, at the Albacy Tentre, and wat as shemil "Chilled why don't you spenk to me I" one of the speciators replied in an audible voice, "Do, Clifford; I would, if she'd talk to me i that way."

Special Correspondence of the N. Y Daily Times.

LAWRENCE, KANSAH, Oct. 9. Notwithstanding the repeated threats of interference made by the " Bordovers," t're free State election passed off here to-day without molestmion, and with the most perfect order and decorum. There is a spirit of resistance awakened among this people. that would have rendered a foreign invasion to-day, for the purpose of controlling the ballot box, or otherwise to intringe upon the rights of the citizens, and exceedingly peritous andertaking. They are drinking In some of that ardor which nerved the hearts of the fathers of the revolution to the performance of great and heroic deeds, and are ready to die, if need be, in defence of their rights on the soil of Kansas; and by action, as well as word, say Kansas shall be free.

But the day and opportunity for deeds of valor seemed to have passed by. The prople are thoroughly aroused, and a unity of purpose prevails. The question of slavery n Kansas is here no longer subject to the alightest doubt or uncertainty. It is now being conceded on all sides that it cannot be established. The great feeling is that he oattle is won.

A large vote has been polled to-day, yet it is known that hundreds, on account of other causes, have been unable to cast their vores.

At the Lawrence precinct 563 votes were polled. In the entire district there will be 800.

There were polled in this district on the 30th of last March 253 free State votes. Never was an election conducted with more fairness and legality than that of to-day at Lawrence. This was conceded by pro-slav ery men who were there in attendance.

There is scarcely a doubt that Gov-Roeder has received a larger vote than Gen. Whitfield, with all his aid from Missouri. The ex. Governor is here awaiting the election returns, and intends leaving for Pennsylvania in about a week.

It is now clearly ascertained that Aichison will be re-elected to the United States Senate from Missourl. A bargain has been effected with some of the triends and former supporters of Mr. Benton, by which his re-election is made secure, although his popularity among the people of this State has considerably tailed.

A FARMER'S LIFE,-The editor of the New England Farmer, in a notice of a recent agricultural exhibition at Amherst, Mass., waxes eloquent in speaking of the farmer and the ennob ing influences which surround him :--

The highest gratification which we found was not in the noble horses, fut beeves wiich kine, pigs, poultry, or regulables, but in the expression of a sentiment fast increasing in the tural population. A great many people have discarded the bellef that labor is an evil, and that there is no enjoy-ment in the occupation that earns the bread we cat and the delightful homes we occupy-After looking at all the departments of the exhibition, we were so fortunate as to be introduced to several of the women of Hampshire county, and in their expressions of attachment to rural life, and of the happy influences of rural occupations upon themselves and their children, wo found a source of gratification far exceeding that which any other matter afforded. They feel that in the calm and rational pursuits of agriculture and its kindred branches, horriculture and arboriculture, there is less excitement of the passions, less temptations to lura from the paths of virtue, and a constundy ennobling influence that lifts the soul through nature up to nature's God. That God is deguerreotyped, as if it were, before us all; that we see his wisdom and love, in the bending grass, the trembling leaf, the sparkling dow, and in a thousand wonderful operations constantly carried on by His superintending care, and which are ever present to him who cultivates the soil. That there are lessons of trust, of confidence, of submission, to be found in the garden and field in many different forms; that wisdom may be found in every flower that blooms, or insect that lives; that there

> " sermons in the stones. Music in the running brooks, And good in every thing."

Such soutiments are gaining ground, and as they are received, will the farm-house become embellished with books, with shade trees, with climbing plants and flowers, and contented hearts, and the home of the farm er become the imppiest of all in our land.

Russian Sungrous.-A letter from Munich, dated the 19th of September, To those who have used it, and who has not? states, that out of fifteen young German medical students who some months back entored the service of Russia, and the majaity of whom went to the Crimen, ten have died from different maladies, and thirty have been seriously injured in their health by the fatigue and suff-ring which they have undergone.

An Irish girl living in our village, who was in the habit of soaping the dirty clothes before putting, them to sould, in being told by her mistress to get a dried codfish and put it to soak for donner, did so, after rubbing it over amartly with a good quantity of hard coap .-- Vineyard Gaz.

HORRIBLE STABBLES CASE,-On Sunday morning, about hall-past ten volclock one of the most-horrid attempts at 'murder and sucide teanspired in East Boston that has ever occured in our city. It seems that a man named David Marrill, who has lately returned from California, had conceived a violent jezlousy of his wif: Cath. arine, and for some days past has been quite harsh in his treatment of her in conequence. On Sunday morning, however, he flew into a violent rage with her, and after a torrent of abusive language, he draw a disk knife with a blade of some tive-inches in length, and with great rapidity stabbed her in thirteen places, chiefly in the breast. Some of the stabs were of the full length of the steel, and others of less force. The woman is frightfully cut up and now lies at home in a most critical state. The doctors are of the opinion that she cannot recover. After thus wreaking his vengence on his wife, Merrill then deliborately plunged the knife into his own person four times, each making a frightful gash. By this time the alarm arasiflo esiloq, emos bas navig asad bad were on the spot, but the wretched man, declaring he would not be taken alive, stabbed himself twice again in the stomach.-Then coolly culling for a drink of water, he gave up the knife and was arrested .their remoteness from the polls, and from He has been token to the Hospital, and notwithstanding his hurts, it is said he will recover. The scene of this horrid trajedy was at the building known as the Barricoon," near the Catholic church in n East Bosten.—[Boston Chronicle.

> A SEERT OF A GREAT MAN .- Goethe. like many other celebrated men, was somewhat annoved by the visits of stangers .-A student once called at his house and requested to see him. Goethe, contrary to his usual custom, consented to be seen . add after the student had waited a short time in the ante-room, he appeared, and without speaking, took a chair and seated bimself in the middle of the room. The student for from being embarrased by this unexpacted proceeding, took a lighted wax candle in his hand, and walking round the poet, deliberately viewed him on all sides ; then, setting down the candle, he drew out his purse, and taking from it a small piece of silver, put it on the table, and went away without speaking a word.

FREE LOVERS IN TROUBLE .- There was a wholesale arrest of the disciples of the new doctrine of free love, in New York Friday evening. Many of them are apparently highly respectable. Albert Brisbane was among the arrested. In conseacues of rumors in the street that the powere watching the premises, a large crowd was gathering in front, and when the prisoners were brought out, they were greeted with hoots and yells, and a of rowdies followed them to the station house. Four men were committed to the cells, namely : Albert Brisbone, for disorderly conduct; and three others for restating the officers.

ILS A boarding-school miss, not thousand miles from Sandusky, made an excursion to the island a few days since, and after dialating on their beauties, said to the gentleman accompanying her-Why, Mr. C., Kelly's Island is al-most surrounded by water.

To horse owners, stable keepers and others-Diers' Healing Embracation has proved to be ne of the best remedies for lameness, caused by strains, bruises, spavin or other accidental causet as well as for wounds, galls or other injuries tha are frequently occurring to horses and other animals. It is also the cheapest preparation that can be used. A stable keeper in Providence suys,---

"I have frequently used it with the most de cided marked results upon my horses. I use it in all cases of cuts, worthils and bruises, and in internal pains and distress, and it bever fails to give immediate relief, or to effect a cure.

It will heal wounds, cuts or sores, upon man or animals, sooner than any other preparation I have ever used.

Prepared only by P. M. Field, 84 Westminster street. For safe by Hazard & Caswell and R. J. Taylor, Newport, R. I.

HOLLOWAY'S OINTMENT.

THE GRAND EXTERNAL REMEDY, THE GRAND EXTERNAL RESIDITY,
By the nid of a microscope, we see millions of its
the openings on the surface of our buildes. Through
these this Obtainent, when rubbed on the alia, in
carried to any organ or inward part. Discusses of
the Kidneys, disorders of the Liver, affections of the
heart, Inflammation of the Lings, Armens, Crughe
and Colds, are by its means effectually clirich. Every
ty housewife knows that passes freely through
home or mean of any thickness. This healing Outment far more readly penictrates through any
our affects privatel complaints, that cannot be reach
ed by other means.

daugerons/inward complaints, that chimot be reached by other means.

ERYSIPELAS, SALT RHEUM and SCORBYSIPELAS, SALT RHEUM and SCORBUTIO "HUMORS:

No remedy has ever done as much for the cure of diseases of the Skin, whatever form they may as same as this Ointened. No case of skilt Rheum. Sourcy, Sora Head, Scrolin, or Erysipelas, can lorg withstand its influence. The livence has travel ever many parts of the gode, whitling the principal bospited sligensing this Ointenet giving advice as to its application and bas thus been the means of rescoring coupliers unpulsers to health.

SOIRE LEGS, SORE RREASTS, WOUNDS.

Some of the most scientific surgeous new raly sole. It is cope with the worst craces of occes, wounds, and every should are wellings, and tune as. Professor Holloway has by continued of the Allied Gevernents, dispatched to the hospitals of the East larger shipments of this Gintment to be used under the direction of the Medical Staff, in the worst teach of wands. It will cure any ulcer, glandular swelling attiffues an conflection of the Johns, even of 20 years, standing.

PILES AND FISTULAS.

These and other similar distressing complaints can be effectually cured if the Gintment be well subbed in over the parts affected, and by otherwise follow-ing the partited directions ground each por. Both the Ointment and Pills should be used in the

following cases:

PROFESSOR WOOD'S

HAIR RESTORATIVE

Is, no doubt, the most wonderful discovery of this age of progress. The following is from a distinguished member of the medical profession.

The following is from a distinguished member of the medical profession:

St. Paul, January 1, 1855.

Prof. O. J. Wood, Deare Sir—Unsolicited, I send you this certificate. After being nearly bald for a long time, and having rired all the hair restoratives extant, and having rired all the hair restoratives extant, and having no fatch in any, I was induced on hearing of yours, to give it a trial. I placed myrelf in the hands of a barber, and had my head well rubbed with a good stiff brobh, and the Restorative then applied and well rubbed in, till the scalp was all a glow. This I repeated every morning, and in three weeks the young hair appeared, and grew rapidly from August last up to the present time, and is now thick, block, and strong—soft and ylearant to the touch, wherease before it was harsh and wiry, what fittle there was of it and that little was disappearing rapidly. I still use your Restorative about twice a week, and shall such have no good and perfect crop of hair. Now I have road of these things—and who has not?—Into have no pleasure to record the result of toy your flash of the hair toness, &c., of the day; and it really gives a pleasure to record the result of tay experience. I have recommended your preparation to athere, and it altendy has a large and general adve throughout the Torritory. The people here saw its effects, and have confidence in it. All who have used it here, will caincid with me in what I have written. The supply you reat us, as the wholesable agents for the Torritory, is already exhausted, and daily inquiries are made for it. You descree credit for your discovery. I for our returny-se thank for the beautit it has done me, for I certainly had deepgained long noo, of ever effecting such result. I congratulate you that your lortour (and a large one) is already made.

HAZARD & CASWELL, off 12 Washington Sq. & 137 Thames St.

THE Burg'ar's Alaim and Physician's Night Bell and Lamp!—This instrument, parent-daugust 21, 1855, is simple and certain is its operation, and gives recently against the depredations of lunglars. An attempt to open any door or wirelow connected with this appearatus, will cause an alarm found and long, to be rung, and a common hand lump to be lighted at the same instant. The longlar, trightened at the alarm he has raised, will treatly absend, even before an arterial intrance is negle.

before an actual entrance is made.

Physicians and Apolic cacies will also find the

Physicians and Apotheracis, will also find the article of greet utility. For your particles, it is appeared by a bell pull at the street door, and will save the expense and convenience of a constantly berning light.

When compared with other in-transmits admitted to be tastly superior, both as to the efficacy of the slaven, and the certainty of lightlen. For sale, at TISDALE'S, 116 Thomes at, 20

SPRATT'S LIGHTNING ROHS!

WITH branched and other 1012 made of which are warranted to preserve the extremity sharp and bright. Eight three are good a conductor was spring initiation made of Cist from, and cold last year by some dealers in Lightning Rode.

Also, Fixtures for a new and valuable inprovement in applying Insulators by which the glassia kept they, causin me leaks it reofs of building, and effectually preventing the Electrical Fluid from being conducted by iron serves and drives into the seco.

The following recommendations have been furnished gratuitously—
Louisville, Jan. 27, 1851.

The Lightning Conductors on the plan of J. Spratt, of Cincinnati, appear to be very well deviced, and in point of mechanical construction, are the best I have ever seens.

It is to be toped that the use of these rode may become general as an important auxiliary deleace against a dauger which must be regarded as it no ordinary magnitude, to which all laidings are liable.

B. SILLIMAN, Jr. Prof. of Chem. in the Univ. of Louisville;

B. SILLIMAN, Jr. Prof. of Chem. in the Univ. of Louisville;

Pref. of Chem. in the Univ. of Louisville;

This will certify that I have examined the Lightning Roda, Aletallic Points, and Insulating Alutenheure, annualactured by Mr. Sprutt, of Cincinnati, Ohio, and regard them as constructed in conformity to the general two of telectric fluid; and the Gilded Copper Branched Points, as promising, from the results of accepted tests to which they were submitted, to resist for years the action of those annospheric causes must likely to corrode them.
